

## What we do

We would love to help you start and manage an Online Service. You are a Professional with ambition. An Online Service can help you:

- Focus on improving customer interaction
- Explore the potential of your content
- Develop one or more online revenue streams

As dedicated partners we will support you to create and grow valuable online interactions with your customers and users. We provide services to help you get inspired, get started and get busy!

## Get Inspired

You will get inspired on the topic of Online Services

**Workshop.** Our new workshop is titled 'No Website, but Online Service' Join us in the 'No Website Series'. Book a workshop for your team.

**Presentation.** Ask us to give a presentation during your event.

## Get Started

Support to start your Online Service on our platform.

Our CDLA approach

**Concept.** We help you create a concept for your own Online Service.

**Design.** Don't get lost in translation. We help translate the concept into an Online Service.

**Launch.** Launch > Live. We can help with that.

**Activate.** Customers, Users & Usage. We will help activate your customer and user base.

## Get Busy

It is time to grow!

We provide support to develop your Online Service further and grow valuable interactions with your customers and users. **This support is for clients only.**
